

# ITD-8000-2

Independent Transfer Drive Unit

## Efficient Increased Production

### Features and Benefits

- Free-standing unit - no conveyor mounting required
- Mechanical linear and height adjustments for accurate transfer positioning
- Height adjustable levelling feet
- For use on all I.S. production lines
- Adaptable to most types of ware transfer
- Compact and easy to install
- Reduced set up time
- Flexible transfer positioning
- Reduced costs in maintenance and operation
- Improved production efficiencies through improved transfer performance
- Suitable for customers synchronous motor
